Profile

I have excellent interpersonal skills with proven abilities in resolving complex networking, hardware and software related issues. I am also designing and developing the website since 2009.

Objective

To develop a career in a well-disciplined and structured organization where my technical skills can be applied and enhanced. I want to acquire wide exposure in handling matters related to installing software, diagnosing computer related malfunctions, troubleshooting & maintenance of the entire system. I am available on weekdays and weekends.

Education

I have two years education in Networking and security at TAFE from 2009 – 2011.

2011 Feb - July Certificate Advance Diploma in Networking and Security

Polytechnic TAFE (Thornlie) 6 months

2010 Aug - Dec Certificate Diploma in Information Technology (Networking)
